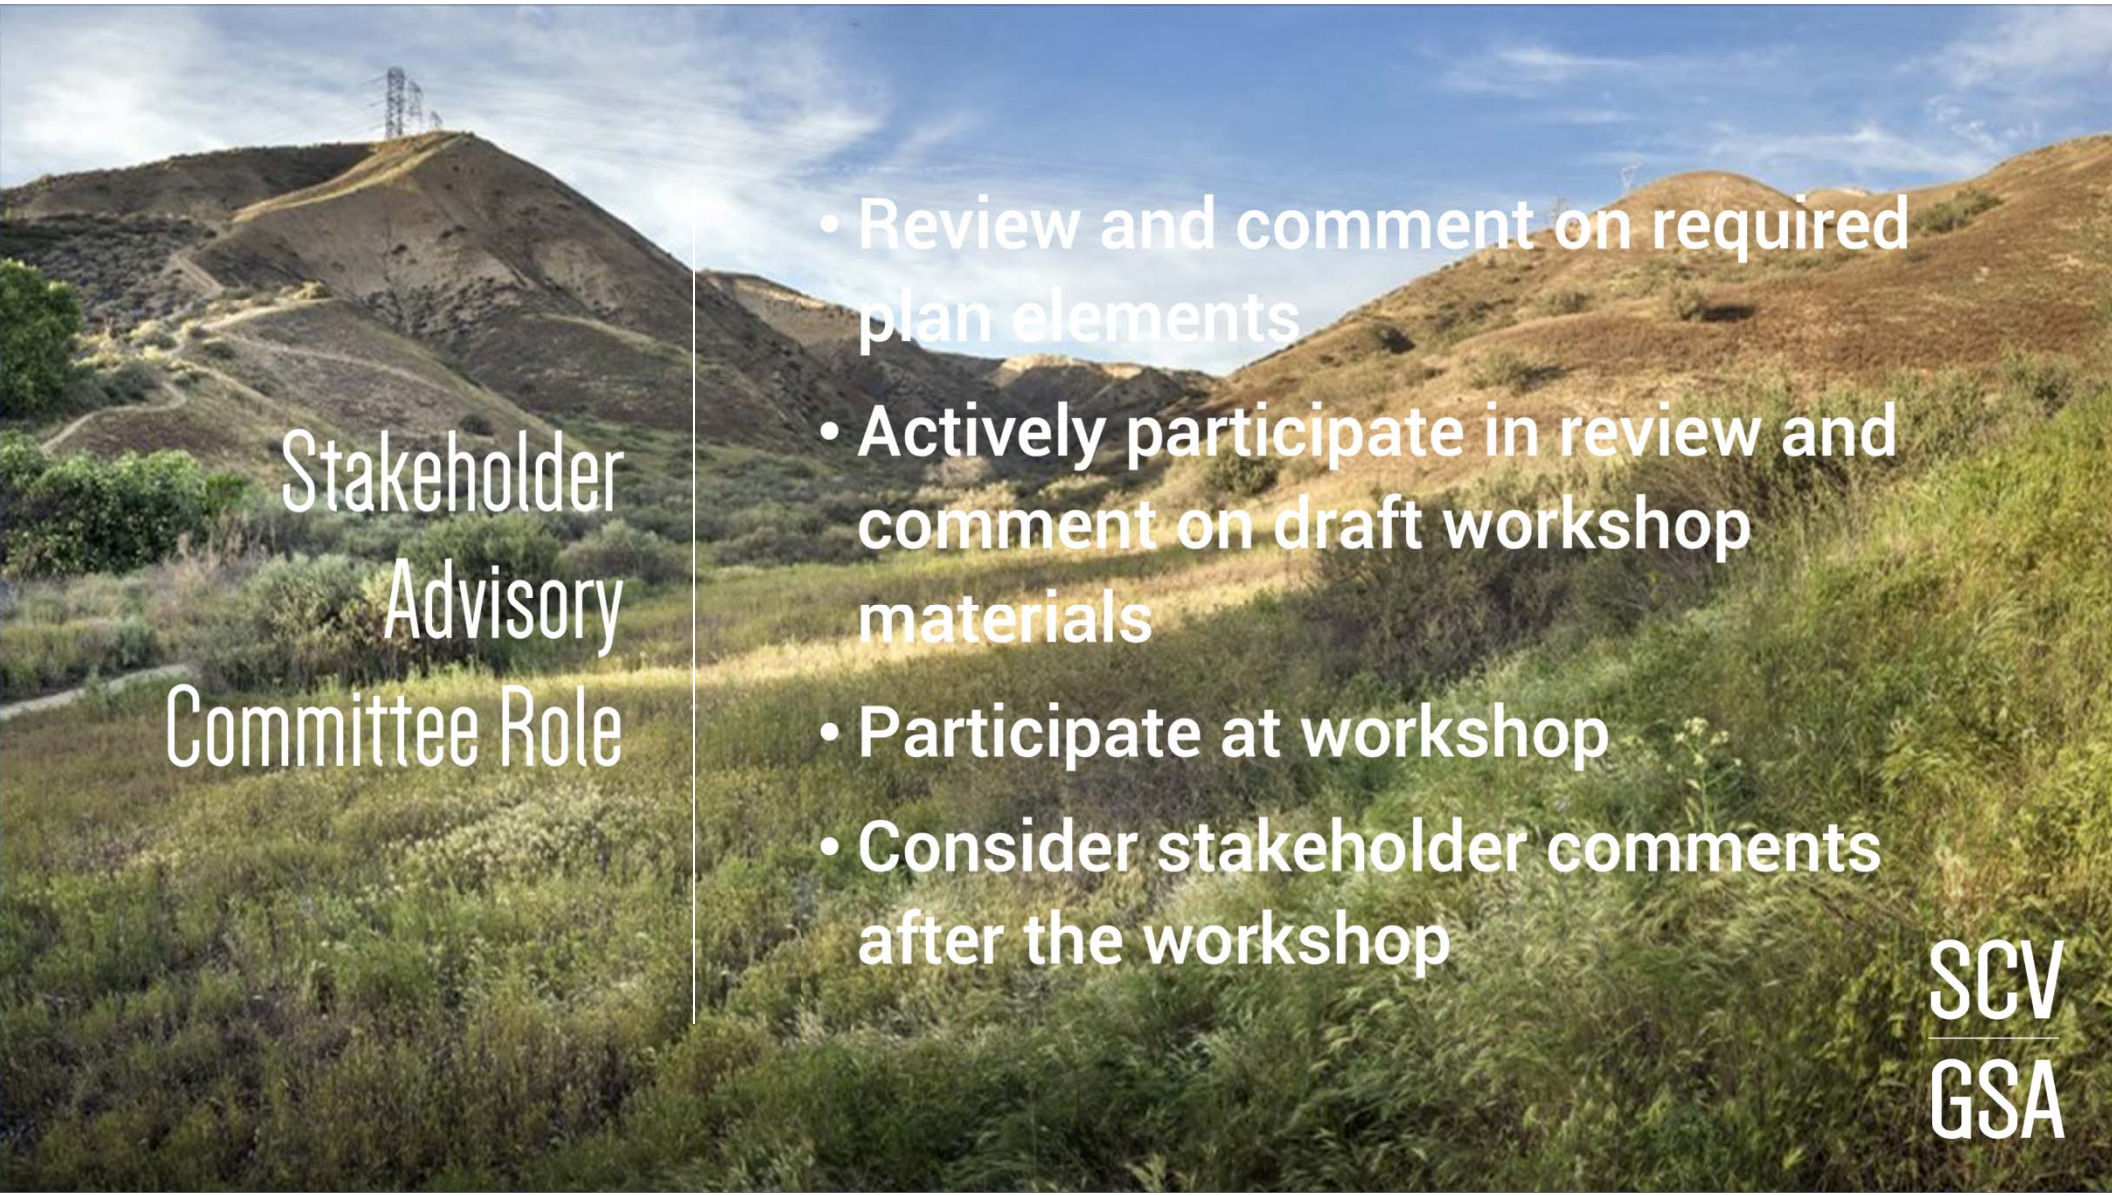
Stakeholder Advisory Committee



Stakeholder Advisory Committee Role
• Review and comment on required plan elements
• Actively participate in review and comment on draft workshop materials
• Participate at workshop
• Consider stakeholder comments after the workshop
SCV
GSA

Goals
• Guide the discussion regarding groundwater sustainability for the Santa Clara River Valley East Subbasin
• Represent the community in a meaningful fashion, providing public input to the SCV-GSA Board of Directors
• Balance the needs of local residents, pumpers, businesses and the environment, while identifying solutions for groundwater basin stewardship
• Create a more holistic Groundwater Sustainability Plan that reflects community values with a scientific focus
