

Status Update of IRWM and Measure W Programs

SCV Groundwater Sustainability Agency
April 5, 2021
Item 3.5

Program Area Boundaries

SCV-GSA Program Updates

Sustainable
Management
Criteria
Development

- SAC, Workshops,
Board Meetings

Next steps

- Development of GSP
Monitoring Program
- Development of
“Projects and
Management
Actions”

Upper Santa Clara River IRWM- Program Updates

Draft and Final Grant Agreement

- \$10,582,640 awarded for this region.

Future Round 2 Funding

- May 2021 DWR workshop regarding “concepts” for Round 2 Grants
- Grant applications early 2022?

Safe
Clean
Water
Program

Two stormwater
recharge projects
approved

Future Calls for
Project

- Expected to close July each year.

Existing Alignment

SCV-GSA

- Groundwater Recharge Projects

Upper Santa Clara River IRWM

- Arundo Removal
- Stormwater Recharge Projects also paired with Safe Clean Water Program

Potential
Future
Alignment

SCV-GSA + IRWM

- Groundwater Recharge Projects
- Monitoring
- Arundo Removal

Safe Clean Water Program

- Stormwater Recharge Projects

Timing Considerations

- Fall 2021- Good understanding of potential SCV-GSA Projects and Management Actions
- Fall 2021/2022
 - Review possible GSA projects for IRWM Grant Application
- 2022
 - Consider proposing a project to the Clean Safe Water Program.
- Also consider opportunity to partner with others on their projects/grant applications
