

SCV-GSA Well Consistency Determination Form

(July 27, 2023)

Consistency with the GSP (GSA to Fill Out)

Based on the information attached to this Form (including SCV-GSA New or Replacement Groundwater Production Well Form), the well permit application made available by the County (if available), the review of the hydrogeologic report provided by the applicant, and the acknowledgments and agreements accepted by the Property Owner, and any other relevant information known at the time, the SCV-GSA makes the following determination about the proposed well.

- The construction and/or operation of the proposed well is consistent with the sustainable groundwater management program established in the Groundwater Sustainability Plan for the Santa Clarita Valley Groundwater Sustainability Agency and would not decrease the likelihood of maintaining sustainability in the Santa Clara River Valley Groundwater Basin, East Subbasin.

- The construction and/or operation of the proposed well is not consistent with the sustainable groundwater management program established in the Groundwater Sustainability Plan for the Santa Clarita Valley Groundwater Sustainability Agency. The SCV-GSA has made this determination for the following reasons:

[Additional text or information may be included as Attachment A to this Form]

The above determination has been made on behalf of the SCV-GSA, the exclusive GSA for the Santa Clara River Valley Groundwater Basin, East Subbasin (DWR Basin No. 4-4.07), by the undersigned. This determination is valid for 12 months after the signed date below or until the expiration of Governor's Executive Order N-3-23, whichever comes first.
